EDUCATION

Course	Year	Name of School/Institute	University/Board	Grade
MCA (Pursuing)	2022	JIMS, Rohini	Jagannath University	76.07%
BCA	2018	PCTI	IGNOU	62.43%
XII	2015	NIOS	NIOS	2ND Division
X	2013	Maharaja Agrasen Model School	CBSE	72.20%

Projects Undertaken

1. ### Portfolio Site

   Technologies Used: HTML, CSS, JS

   Project Description: My personal portfolio website that showcase some of my major live projects that I have done and let others know about myself.

   Link: https://kapilgoel.netlify.app

2. ### Preplacement Portal

   Technologies Used: React, Nodejs, Express, AWS S3, MongoDB

   Project Description: This portal allows students to view placement preparation content, submit assignments, build a resume, apply for jobs and internships. Faculty can add placement preparation content, add jobs and internships, view students' profiles and resumes who have applied for internships and jobs, add assignments and receive assignment submissions from students.

   Link: https://placementpre.netlify.app

3. ### Ecommerce Website

   Technologies Used: Reactjs, Redux, Firebase, Stripe API

   Project Description: Users can sign up and browse the products available, check products available and their associated pic, description, and price. They can add products to cart, purchase them and do online payment using stripe API. Products are divided into categories. Users can click on the specific category and view the products for that category.

4. Face Recognition App

Technologies Used: React, Nodejs , Express, PostgreSQL, CLarafai API

Project Description: An image recognition app. The main feature of this site is that users can upload images and the app will automatically detect faces using Clarafai Api and draw boxes around the faces and show them to the user. Additionally, the site has signup, login, logout, edit profile, count uploads functionalities.
